Digital Designer & Video Editor

Born in northern Thailand and raised in a farming family, I learned resourcefulness early—and it still shapes my creative approach.

I'm a self-driven multimedia designer blending graphic design, branding, retouching, motion graphics, and 3D work to bring ideas to life.

Curious and fast-learning, I thrive on turning complex concepts into bold, modern visuals. Now, I'm focused on remote creative opportunities and building a portfolio that shows not just what I design—but how I think.
